Campaign Spending: [List of Filers](#)

The people of the 30th District have spent 30 years with the same State Representative, yet the district has not improved significantly over that time. Rents have skyrocketed in cost, wages haven't kept up with the cost of living, and there are less opportunities for today's children than there has been for past generations.

I'd like to try to change all that. I want to be a voice for the poor, the disabled, immigrants, and others whose interests are not really heard, or understood, much less acted upon.

I'm a community organizer and advocate. I studied politics in college and worked my way through law school. I've been involved with groups working to help, children, minorities, women, the disabled, renters, the environment and many other causes.

I've spent time as an aid in Congress and worked in the state legislature lobbying for social justice, and also helped move the court system to help the poor and disenfranchised.

However, I've also been homeless, been on public assistance, worked 60 hours a week at a minimum wage job that wouldn't even cover my rent, and struggled with a disability.

I can relate to, and understand, many of the problems of the people of the district, and I think I can do something to help. With your kokua and vote I'd like to try.
